The depth contour map is one source of vital information used by all successful fishermen because it provides an underwater look into the fish's home. Uncle Larry's Lake Maps book has depth contour maps of 284 Indiana lakes. This is the new fourth edition with more lakes than ever. It includes tables of vital statistics about all the lakes in the book. If you don't own one you are missing an opportunity to improve your fishing.

Complementing Uncle Larry's book are the Uncle Larry's Northeast Indiana County Road and Lake Map and Uncle Larry's St. Joseph River Map. Uncle Larry's Northeast Indiana map covers the area from South Bend to the Ohio state line and from the southern Allen county border to the Michigan state line. The map shows all county roads, lakes, and streams in the area.

Uncle Larry's St. Joseph River Map covers the St. Joseph River from the Mishawaka, Indiana dam to the Mottville, Michigan dam. It shows the rivers and roads with launching sites.

Don't miss out, get one of each today at your local map or fishing tackle dealer.

-----  
 If your local dealer does not stock Uncle Larry's Map products, send check or money order to the address below.
